EZ Assets

Do More with NetSuite

Do you have fixed assets but don't have the need for the full NetSuite Fixed Asset module? EZ Assets is a simplified fixed asset management tool built on the NetSuite platform and will help you move from spreadsheet to automation.

Features & Benefits

Straight Line Depreciation auto-generates straight line depreciation schedules based on user defined asset life

Asset Reporting includes multiple built-in reports to ensure your ability to answer questions about assets values, planned depreciation, etc.

Asset Transfer/Disposals makes it easy to do basic asset transfers and/or disposals

Auto-Capture Assets can automatically create assets from vendor bills for review/approval or create assets directly

Auto Monthly Depreciation automatically generate depreciation entries each month

Pricing: \$2,800 annual subscription plus one-time \$1,200 setup fee
